#Zomboni
Often mistaken for a zombie driving a ice machine, the Zomboni is a totally different life-form more closely related to a space ogre than a Zombie.

The Zomboni is a zombie riding a Zamboni (according to the old Almanac entry, it's actually more closely related to a space ogre), an ice resurfacer with a red Z on it that leaves an ice trail on which nothing can be planted. It is the thirteenth zombie to appear in Adventure Mode.

The Zomboni applies ice, steam and pressure to your plants.
